

SMIT CHAUDHARI

Kamloops, BC, +1 250 852 8973, smit.c1@outlook.com, [LinkedIn](#), [Github](#)

PROFILE

Computing Science graduate with hands-on experience building AI-powered and full-stack web applications using React, TypeScript, Node.js, SQL, and Python. Developed an AI database assistant that reduced manual lookup time by 40% and shipped a real-time sports platform with 50+ active users. Passionate about clean code, REST API design, and bringing AI into practical products. Actively seeking a remote Junior/Full-Stack Developer role.

TECHNICAL SKILLS

- **Frameworks & Libraries:** React, Node.js, RESTful APIs, Tailwind CSS
- **Programming Languages:** TypeScript, JavaScript, Python, C, C++, Java, SQL, PHP, C#
- **Data Analytics & Visualization:** Power BI
- **AI & ML:** TensorFlow, Pandas, NumPy, OpenCV, Scikit-learn
- **Databases:** MySQL, SQL (Oracle), MongoDB,
- **Development Tools:** GitHub, Visual Studio Code, PyCharm, Android Studio, MS Office Suite
- **Methodologies:** Agile, Scrum, Waterfall, Spiral Model

EDUCATION

Bachelor of Computing Science

Sep 2021 - Apr 2026

Thompson Rivers University, Kamloops, BC

Relevant coursework: Artificial Intelligence, Machine Learning, Natural Language Processing, Database Management Systems, Big Data Analytics and Data Structures & Algorithms, Systems Analysis, Web Development, Data Visualization

JOB EXPERIENCE

Remote IT Support & Security

Jan 2025 - Present

Concentrix

- Resolved 120+ remote technical support tickets involving Windows/Linux systems, VPN connectivity, software installation, and network troubleshooting with a 95% first-response resolution rate.
- Improved internal security monitoring by assisting with vulnerability scans, firewall rule reviews, and endpoint protection updates, reducing recurring security incidents by 30%.
- Collaborated with a 4-member development team to build and maintain internal web applications using React, Node.js, and MySQL, improving workflow efficiency for 50+ users.
- Created SQL reports and Power BI dashboards that reduced manual reporting time by approximately 40% for operational and user activity tracking.

PROJECTS EXPERIENCE

WRAP AI, Thompson Rivers University, Canada

Sep 2025 – Dec 2025

Technologies: ReactJS, Node.js, SQL, OpenAI API

- Architected and shipped a full-stack AI assistant enabling natural-language queries against enterprise databases, eliminating manual SQL lookups for non-technical users
- Integrated OpenAI API with custom prompt engineering to improve response accuracy; reduced manual data lookup time by ~40%
- Designed RESTful backend query logic and automated task creation workflows, improving team productivity. Deployed with version-controlled CI/CD pipeline using Git; maintained clean modular codebase across frontend and backend

GullyScore, Thompson Rivers University, Canada - [Github](#)

Jan 2025 – Apr 2025

Technologies: React, TypeScript, Tailwind CSS

- Built and deployed a responsive real-time web application handling 50+ concurrent users with zero downtime
- Implemented complex match logic including no-balls, free-hits, Duckworth-Lewis calculations, and score validation using TypeScript with full type safety
- Deployed on Vercel with GitHub CI/CD; actively expanding with player statistics dashboard and ML-based match prediction module
- Wrote reusable component library in React reducing UI build time for new features by ~30%.

NGO, Thompson Rivers University, Canada

Sep 2024 – Dec 2024

Technologies: Bootstrap, PHP, MySQL, JavaScript

- Designed and implemented a normalized relational MySQL database managing users, donors, volunteers, tasks, and financial transactions across 4 entity types
- Built role-based authentication (Admin, Donor, Volunteer) with session management and access control
- Developed automated task assignment workflow reducing admin overhead for volunteer coordination
- Implemented secure donation tracking module with audit logging for financial accountability.

CERTIFICATIONS

- Cisco Certified Ethical Hacker (CEH) - Cisco (2025),
- Full-Stack Development - Apna College (2024),
- AWS Certified Cloud Practitioner – AWS (In Progress, 2026)
